

LIFETIME WARRANTY CERTIFICATE

Central Fiber LLC guarantees that Xcell cellulose insulation is an exceptionally high-quality, Class One building material produced from recycled natural cellulose fibers. As manufactured and supplied, Xcell cellulose insulation meets the Consumer Product Safety Commission standard for flame resistance and corrosiveness. Federal Specification ASTM-C739 and the Federal Trade Commission regulations for Home Insulation Materials.

Xcell cellulose insulation is guaranteed for the life of the structure to retain its thermal resistance (R-value), resist insects, retain its fire-retardant characteristics and provide effective sound control when properly installed. This warranty excludes damages to the insulation resulting from structural defects, physical abuse and/or acts of nature. Additionally, this warranty expressly excludes consequential damages that may arise from the use or misuse of this product. Failure of the insulation to perform as outlined above entitles the owner to free replacement of material only.

The contractor warrants that Xcell cellulose insulation has been installed in accordance with all product installation requirements and the recommendations of the manufacturer. The R-value ratings of the installed insulation are as follows:

Ceilings R-_____ Walls R-_____

OWNER _____
